#### COMMENTS:

This well is the horizontal lateral of a test pilot hole. Due to testing results, Noble Energy respectfully requests to alter the drilling plan in order to toe down into the Graneros formation at the end of the lateral. Noble Energy certifies that there are no other changes to the permitted well, other than the location of the top of production and the total depth of the well. The Lease, Spacing, and Pooling information, BHL, and SHL locations will not change. Directional Plan attached.

Operator Comments:

I spoke to Barbara Westerdale over the phone about this well on 9/23/14 about this change. I was instructed that the Lincoln was part of the Greenhorn, which is how this well was originally permitted, so I only needed to add the Ganeros formation at the toe of the well.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
