Operator Comments:

The Surface Hole Location (SHL) was changed to put all of the 2014 wells in a single line to safely accommodate the rig moves. The Bottom Hole Location (BHL) was not changed and the slight move of the SHL did not require the directional survey to be changed.. The cementing and casing program did not change.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
