Re: Access to Federal 24-2 Well
Twin Buttes Land Co., LLC
NW5W Sec. 19, T35, R101W.

Amanda Hoodwin:

We request that the Culvert in Douglas Creek and the Cattleguard and gate in the fence along Hwy. 139 be left in place.

The Culvert was put in Douglas Creek at the location specified by Twin Buttes in 1976. Later, when the Colo. 139 ROW was fenced, we were asked where we wanted the Cattleguards and gates placed for access to our private property.

We use this Cattleguard and Creek Crossing into our property every year.

Sincerely,

Cheryl Roberson, Manager
