

REHABILITATION PLAN

Lease No.: C-27913; Well Name and No.: Federal No. 12-17
Location: 1450' FSL 990' FWL, Sec. 17, T. 39 N., R. 19 W.

Ranger Oil Company intends to drill a well on surface
owned by Veda Robinett. The lessee/operator
agrees to complete the following rehabilitation work if the well is a producer:

☒ Yes ☐ No Maintain access road and provide adequate drainage to road.

☒ Yes ☐ No Reshape and reseed any area not needed for maintenance of the
pump and support facilities.

Other requirements: Ranger will dry drill to 200' and set 13-3/8" casing to 200'
and cement to surface

The following work will be completed when the well is abandoned:

☒ Yes ☐ No Pit will be fenced until dry, then filled to conform to
surrounding topography.

☒ Yes ☐ No Water bars will be constructed as deemed necessary.

☒ Yes ☐ No Site will require reshaping to conform to surrounding topography.

☒ Yes ☐ No Entire disturbed area will be reseeded. If yes, the following
seed mixture will be used.

Reseeding will only be at the direction of the surface
owner

☐ Yes ☒ No Access road will be closed, rehabilitated and reseeded using
the same seed mixture as above.

☒ Yes ☐ No Access road will remain for surface owner's use.

☒ Yes ☐ No Water bars will be constructed on the access road as deemed
necessary.

Other requirements: See attachment

Surface Owner:

Name: VEDA ROBINETT
Address: Box 414
City: DOVE CREEK
State: COLORADO
Telephone: 677-2514 OFF. 677-2386
Date: 5-4-83

Operator/Lessee:

Name: Ranger Oil Company
Address: P. O. Box 22004
City: Denver
State: Colorado 80222
Telephone: (303) 773-0550

I CERTIFY that above rehabilitation plan is acceptable to me.

(Surface owner's signature)

This plan does not affect any other agreements between the lessee/operator and
surface owner.

Other Requirements:

1. Ranger agrees to use the existing road into the northwest corner of the location and upgrade to the surface owners requirements.
2. The drilling contractor will provide portable toilets and there will be no toilet holes dug.
3. The topsoil (down to 18") will be stripped and set aside for reuse when the location is reclaimed.
4. All pits will be fenced on 3 sides during the drilling of the well and the fourth side will be added when the rig has moved off the location. Pit liners will be utilized if deemed necessary by the surface owner.
5. A portable trash pit shall be used and all trash on the location shall be picked up at all times.
6. Unless unavoidable, no vehicle shall go off the right of way without the surface owners prior consent.
7. The surface shall be reclaimed as close as possible to the original condition.
