COMMENTS:

Need to change this from a vertical well to a directional well to get a 1 mile separation from the already drilled EWS 1, API#05-123-39770. A Rig Agreement is in process with a planned Spud of 10/10/14. The Surface 2A is approved and location is being built as the Surface hole location remains as originally permitted.

Operator Comments:

Want to change this wellbore from a vertical to a directional to get the mile separation from the already drilled EWS 1, API#05-123-39770. A Sub-Surface Easement Agreement and Waiver of 30 Day Notice (Page 3) with the Surface Owner above the BHL is attached. A Directional plan is attached. New Notifications were not necessary as the Directional did not change the Surface notifications and no new Mineral Owners are involved. There is no change to the Formations - just the depths adjusted to the surface elevation - see attached WB Diagram. BMP's Remain as initially permitted.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
