RE: Request to enter and re-plug

Township 6 North, Range 61 West, 6th P.M.
Section 18: NW $\frac{1}{4}$ NW $\frac{1}{4}$
Well: Bolin #1
API# 05-123-05228
Weld County, Colorado

Mr. Bolin,

Per the new Colorado Oil and Gas Conservation Commission DJ Basin Horizontal Offset Policy, effective June 20, 2013, Bill Barrett Corporation ("BBC") is required to assess and remediate any inadequately plugged wellbores within 1500 feet of our horizontal wellbore. Should the work be required, a work-over rig (up to 100' derrick) in addition to cement trucks and other light vehicle traffic will be utilized to complete the work. Pad construction is not necessary and we will utilize existing disturbed areas whenever possible. BBC will perform light dirt work in order to locate the existing wellhead and flatten any topography of an unsafe gradient.

BBC anticipates commencing subsequent well operations on the above referenced well(s) as early as October 1, 2014 and anticipate being on location for approximately 3-5 days, weather permitting. Upon your request, a representative from BBC will be available to meet and consult with you or your representative as to these operations. If you wish to do so, pursuant to Rule 305.c.(3), for the purposes of the notice provided herein you may appoint a representative in the space below by providing their name, address and telephone number.

Pursuant to COGCC rules, you as surface owner have the responsibility to notify surface tenants, if any, of the proposed operation. **Please sign and return in the provided envelope.** Should you have any questions or concerns about this matter please feel free to call me at (318) 805-8721 or email at patrickjfinley@gmail.com.

Sincerely,

Patrick J. Finley
Landman
