David,

I have reviewed the referenced Form 2A Oil & Gas Location Assessment and have the following comments.

1) Due to the proximity of the intermittent pond (320 feet southeast) to this proposed oil and gas location, I would like to change the Sensitive Area designation from NO to YES.

2) Due to the proximity of the intermittent pond, I would like to add the following additional Condition of Approval to this Form 2A:

"Operator must implement site-specific best management practices in accordance with good engineering practices, including, but not limited to, construction of a berm or diversion dike, site grading, or other comparable measures, sufficient to protect the intermittent pond located approximately 320 feet southeast of the oil and gas location from a release of drilling, completion, produced fluids, and chemical products."

Please respond to this correspondence by November 8, 2014. If you have any questions, please contact me. Thank you.

Doug,

Cirque has signed off on your proposed changes for the Motu East location.

Thanks,

David

Brad,

You okay with these proposed changes for the Motu East location?

David
