Jeff & Ann,

I have reviewed the referenced Form 2A Oil & Gas Location Assessment and have the following comments.

- 1) Your Drilling Waste Management Plan indicates that the drill cuttings will be disposed of at a COGCC approved mud field. Please provide me with the Facility ID # for the mud field that Extraction has been approved to use for disposal.
- 2) Now that the Public Comment period has ended for this Form 2A Oil & Gas Location Assessment, please send me a letter certifying that Extraction has complied with COGCC Rule 306.e. If any meetings or consultations were held, please also let me know their outcome.

Thank you.

Hey Doug,

1) We are still working on the COGCC approved mud field information. This is the same case as the Carson and Burnett. Would it be possible to do a COA for this pad as well?

2) Attached is the COGCC Rule 306.e. certification.

Thanks for your patience on the mud field information.

Sincerely,

Jeffrey Annable
