OK.

I'd rather give you one and not need it than not give you one you need.  
I wasn't sure if that was something that you and Brett discussed or not.

---

It's after the fact – so the sundry doesn't accomplish anything? I will probably delete it.

Thanks,  
Diana

According to policy, we should submit a sundry on this, so I did:

---

Please see the email below regarding surface casing set depth for the referenced well. I obtained verbal acknowledgment of this from Diana yesterday morning and am still waiting for her to respond to this email. Do we need to submit a sundry or anything for this?

---

Diana,  
As we discussed, due to a mistake on the drill pipe tally we did not drill our surface hole to the permitted depth of 1150'. We will be setting surface casing at 1060', 90' short of the permitted depth.

Please let me know if you need anything else. Thank you for your help, and have a great day.
