13. Describe Proposed or Completed Operation (clearly state all pertinent details including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths or pertinent markers and sands. Attach the Bond under which the work will be performed or provide the Bond No. on file with the BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final abandonment Notice shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Williams requests approval to relocate several production tanks that are currently adjacent to the PA 21-2 pad. The existing pit on this pad will be reclaimed and the tanks will be placed in this area as shown on the attached photo. This will allow us to reclaim the existing tank area and some of the road and pad to make a much smaller footprint of disturbance.

14. I hereby certify that the foregoing is true and correct.
