Andrew,

I will post this correspondence to both well files. As discussed, please review our 4/6/2006 conductor pipe policy for surface protection, reporting, and/or plugging if the unused conductor will be left idle.

Thanks,

Dave

David,

As discussed yesterday afternoon, we unintentionally drilled the conductor on the CBU DHS3B-27 O15 1100 in the place of the form 42 for the CBU DV16C-15 O15 1100. I submitted another form 42 for conductor drilling operations that will take place today on the CBU DV16C but was not able to recall the previous form 42.

Listed below are the two well names along with the document numbers for both form 42 notices.

Well Name: CBU DV16C-15 O15 1100

API#: 05-103-12145-00

Note: Conductor drilling operations will take place on 10/30/2014

Form 42 Document #: 400720411

Well Name: CBU DHS3B-27 O15 1100

API#: 05-103-12144-00

Note: Conductor was drilled on 10/20/2014 under form 42 document # 400711340

We will file a sundry notice for the CBU DHS3B-27 with a description of our intentions to drill the well at a later date.

Please do not hesitate to contact me with questions.

Thank you,
