Subject: SG Interests I, Henderson-611S90W#9 SWNW 383447 Pad, SWNW Sec 9 T11S R90W, Gunnison County, Form 2A#400673696 Review

Catherine,

I have been reviewing the Henderson-611S90W#9 SWNW Pad **Form 2A** (#400673696). COGCC would like to attach the following conditions of approval (COAs) based on the data SG Interests I has submitted on or attached to the Form 2A prior to passing the Oil and Gas Location Assessment (OGLA) review.

Planning: The following conditions of approval (COAs) will apply:

COA 91 - Notify the COGCC 48 hours prior to start of pad construction, rig mobilization, spud, pipeline testing, start of hydraulic stimulation operations, and start of flowback operations using Form 42 (the appropriate COGCC individuals will automatically be email notified, including the LGD for hydraulic stimulation operations).

Construction: The following conditions of approval (COAs) will apply:

COA 58 - Berms or other containment devices shall be constructed to be sufficiently impervious (corrugated steel with poly liner) to contain any spilled or released material around crude oil, condensate, and produced water storage tanks.

Drilling/Completions: The following conditions of approval (COAs) will apply:

COA 26 - Potential odors associated with the completions process and/or with long term production operations must be controlled/mitigated.

COGCC would appreciate your concurrence with attaching these COAs to the Form 2A permit prior to passing the OGLA review. If you have any questions, please do not hesitate to call me at (970) 309-2514 (cell), or email. Thanks.

Dave
