Subject: RE: Mailander 4-34-6-45 groundwater Sundry Notice Doc # 400726187

Hi Mr. Koepsell,

I am not able to go back to the original Sundry Notice to add the requested documentation. Should I complete a new Sundry Notice for this?

Thanks,

Sandra Hernandez

Sandra,

Please provide documentation that the owners of water well Permit No.: 92138 denied access. The documentation should contain methods and dates of contact and any other relevant information. The Sundry will be put on hold until the additional documentation has been received.

Thanks,

Arthur

PHONE LOG 1 of 1 Project Name Mailander 4-34-3-6-45, Sagehorn 14-34-6-45, and Fiddler's Peak Ranch 4-3-5-45Project Numbers E14435.EC, E14437.EC, E14438.ECLocation Phillips and Yuma County, ColoradoWell contact/property owner Paul MailanderPrimary number (970) 580-2403 (cell)

10/28/14 9:29 a.m.: RAP spoke to Mr. Mailander, who appears to own the land that both the Shiner wells are positioned on. He said that the wells are shut down and he can't really take the time during corn harvest to get everything turned back on, but he does want the wells sampled. He mentioned asking Omimex for payment for his time to accomplish this. RAP requested that Omimex contact him.

11/3/14: RAP notified by Omimex via email that they won't be compensating Mr. Mailander if he gets his wells turned on for sampling.

11/3/14: 12:30 p.m.: RAP explained to Mr. Mailander that Omimex will not be compensating him for the time/cost of turning his wells back on. He asked if AGW has money in our budget to compensate him, and I explained that we do not. I explained that it's up to him; if he wants his well sampled prior to drilling then he'll need to take the time to turn the wells on, but if not, we'll just record denied access. Mr. Mailander responded that he can get the wells up and running the week of November 17th.
