Doug,

You have already passed this 2A but Whiting revised the facilities on 2A 400700991, Horsetail 19N-1924M-R. I have updated the facilities tab and attached the facilities drawing to the 2A. The Cultural Distances from production facility is blank, not sure how you want to handle this.

Thanks,

Jason Kosola

To: Jason Kosola - DNR <jason.kosola@state.co.us>

Jason,

I would like to revise the pending subject Form 2A to include the following facilities:

- 2 - oil tanks
- 1 - injection pump
- 1 - electric generator
- 26 - water tanks

I have attached a proposed layout for this equipment. Please call if you have any questions. Thank you for your time.

Sincerely,
Michael L. Brown

Michael,

Because Whiting is now wishing to add facilities to this location, we need some additional information before we can approve this Form 2A.

- 1) A pipeline description for pipelines/flowlines that will flow from the tanks to the well.
- 2) The Cultural Distance tab now needs distances to all listed cultural items from the nearest facilities.
- 3) An updated date the construction is planned to commence.

Thank you.

- 1) There will be approximately 100' of 4" High Pressure Fiberglass pipe from the pumps to the disposal well.
There will be 4,6, and 8

inch fiberglass pipe between the tanks and pumps. There will be 4 and 6 inch carbons steel pipe between the tanks and truck

loadouts and existing pipeline corridor.

- 2) building - 2800
 - bldg unit - 2800
 - high occ - 5280
 - Outside - 5280
 - road - 5280
 - utility - 5020
 - railroad -5280
 - Property - 710
