Paul,

I have completed my review of the referenced Form 2A Oil & Gas Location Assessment and have the following comments.

- 1) You have indicated the related remote facility where the tanks will be located is one mile away. Please provide the Location ID # for this related remote location.
- 2) Because this proposed oil and gas location is within the Upper Crow Creek Designated Groundwater Basin, I will change the Sensitive Area designation in the Water Resources section from NO to YES.
- 3) You have indicated the nearest water well is 230 feet west of the proposed oil and gas location, however, a review of its permit indicates the permit has expired and the well was likely never drilled. This is probably also why your surveyors did not identify a water well on your Location Drawing. The next nearest existing water well appears to be Permit #236259 located approximately 1,000 feet southeast. Therefore, I would like to change this distance in the Water Resources section.
- 4) You have indicated the Right to Construct this proposed oil and gas location is granted by a Surface Use Agreement. Please provide me with a copy of the executed SUA.

Please respond to this correspondence by December 11, 2014. If you have any questions, please contact me. Thank you.

-

Doug,

1. Remote Facility Location ID #438816.
2. Sensitive Area designation change to Yes – agreed.
3. Agree to change in distance of nearest water well to Permit #236259 located aprx 1000' southeast.
4. SUA attached, see Exhibit page A1.

Thanks Doug – we really appreciate your hard work on behalf of IPT!

Paul

Paul,

Can you send me a copy of the SUA that has any monetary amounts that NGL has agreed to pay

the surface owner redacted. This will go on the 2A and be viewable by anyone.

Doug,

Thanks for having me do that – I believe there was just the one page with those prices listed – page 3.
