Engineer	Evaluated existing offset wells within 1,500 feet of this wellbore. Offset wells target the MVRD formation. No mitigation required. The proposed surface casing is more than 50' below the depth of the deepest water well within 1-mile of the surface location when corrected for elevation differences. There are no water wells used for non-industrial purposes within a 1-mile radius of the surface location.	10/10/2014 12:03:58 PM
