Well/Facility Name: Circle B Production Pad Well/Facility Num: 6-66-9
County: WELD
Location: QTRQTR: NENW Sec: 9 Twp: 6N Rng: 66W Meridian: 6
Lat: 40.508050 Long: -104.785300
Field Name: _____ Field Number: _____

DESCRIPTION

Provide a detailed description of the accident, problems, and cause (equipment failure, human error, etc.): actions taken to provide well control in detail::

At approximately 5:40 AM on November 14, 2014 a hot oiler operated by Heat Waves Hot Oil Service, LLC was on Bill Barrett Corporation's (BBC's) Circle B production facility. The hot oiler was on location to circulate hot oil through oil tanks at the location. During the hot oiling operation a leak in the oil circulation piping on the truck sprayed oil onto the heating coils, igniting a fire. The ensuing fire engulfed the truck. The Heat Waves truck driver called 911 and the Eaton Fire Department responded and extinguished the vehicle fire. No BBC equipment was involved in the fire, however, the paint was scorched on several nearby tanks. Approximately 1-2 barrels of crude oil was released from the truck during the incident. None of the oil or water from fire suppression actions left BBC property.

OTHER NOTIFICATIONS
