Michael,

I have completed my review of the referenced Form 2A Oil & Gas Location Assessment and have the following comment.

Because Whiting is proposing Onsite bio-remediation of the drill cuttings from this proposed disposal well, please send me their Waste Management Plan and I will attach it to the Form 2A.

Please respond to this correspondence by December 24, 2014. If you have any questions, please contact me. Thank you.

Doug Andrews
