Re: Barr Trust #1-30 - SW/4 30-23S-47W, Prowers County, CO

Dear Ms. Combs:

Please be advised that I am the surface owner of the lands above described. You have advised that an inspection was performed by the COGCC on July 8, 2014, and the followings were listed as necessary for final reclamation of this drillsite:

1. "An invoice is required showing that all work has been done." Please be advised that I removed the pallets and the metal pipe rack that were abandoned by the drilling company when this well was drilled. These services were performed at no charge.

2. "Photographs are required." I do not wish to have Grand Mesa enter onto my property to plow, re-seed, take photographs or disturb the surface of these lands. The location of this drillsite is in a pasture and the natural grasses and vegetation that are currently growing are to my satisfaction.

I have inspected the lands surrounding the drillsite and find that no further reclamation will be necessary. Please be advised that Grand Mesa Operating Company is released of any and all liability

Page Two

for any items that were abandoned during the drilling of the above-captioned well and will not be required to plant any grass or perform any reclamation of the surface whatsoever. No further inspections of the surface will be necessary. If you should have any questions or concerns, please contact me at 719-336-9702. Your cooperation has been greatly appreciated.

Very truly yours,
