RAZOR 10E-1503A (0512340057),
RAZOR 10E-1504B (0512340056)

Requesting an exception to ground water sampling requirements per statewide Rule 609.c.

Although the COGCC GIS Online interactive map shows one well within 1/2 mile of the proposed oil and gas wells, further research indicates that this well is not in the location the map depicts.

AGW spoke to Mr. Jube Kester of Kester Pump Services in Raymer, Colorado on December 2, 2014. Mr. Kester stated that there are no operational wells in Section 10, T10N, R58W. He stated that the nearest operational well is to the north, in Section 3.

Additionally, further review of the DWR well records associated with this well (Permit #11401) reveal that although the well was originally permitted in Section 10, a well record amendment from 1972 states that the well is in fact in Section 3, which places it more than 1/2 mile from the location of the proposed oil and gas wells.

There are no water sources located within one-half (1/2) mile of the proposed oil and gas wells.

There are four water source exceptions requested per Rule 609.c.
