In addition, under the COGCC Rule 318A.c. any new Twinning well is to be located within 50 feet of an existing well. Bayswater's proposed wells are located approximately 407 feet from the nearest Oil and Gas well. Bayswater has obtained written permission from the surface owner by way of signed waiver.

Bayswater respectfully requests the COGCC to review the enclosed information and approve the requested exception location and Application for Permit to Drill for the wells on the subject pad. Many thanks.

Respectfully,
