Mr. Robuck,

Thank you for submitting the recent Supplemental Form 27 Reports, No Further Action Requests. Based on the information provided, COGCC has changed the following Remediation Projects to closed status and no further action is required at this time:

Wierman 4, API #001-08786, Remediation Project #8687

Wierman 5, API #001-08787, Remediation Project #8688

Wierman 6, API #001-08788, Remediation Project #8689

Sauvage 3, API #001-08803, Remediation Project #8690

Please keep in mind that Energy Search Company is still responsible for final surface reclamation at these locations after the wells have been plugged in accordance with Rule 1004.

Regarding the enforcement matter, once you have executed the AOC and it has been approved by the Commission, I will close the related NOAVs. Please remit a copy of each NOAV with the section, "To Be Completed by Operator," filled out and signed at your earliest convenience.

If you have any questions or require additional information, please call me.

Thank you,

**John E. Axelson, P.G.**

East Environmental Supervisor
