Operator Comments:

Noble requests the subject well spacing unit configuration to be change. The original permit only allocates 40 acres (NW/4NW/4) to the well and based on the lease language and that there is not a spacing order in place, the spacing unit needs to be 320 acres. The new spacing unit will be N/2 11N-60W-29 (320 acres) and is producing from the J-Sand.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
