H2S REPORTING

Data Fields in this section are intended to document Sample and Location Data associated with the collection of a Gas Sample that is submitted for Laboratory Analysis.

Gas Analysis Report must be attached.

H2S Concentration: _____ in ppm (parts per million) Date of Measurement or Sample Collection _____

Description of Sample Point:

Absolute Open Flow Potential _____ in CFPD (cubic feet per day)

Description of Release Potential and Duration (If flow is not open to the atmosphere, identify the duration in which the container or pipeline would likely be opened for servicing operations.):

--

Distance to nearest occupied residence, school, church, park, school bus stop, place of business, or other areas where the public could reasonably be expected to frequent: _____

Distance to nearest Federal, State, County, or municipal road or highway owned and principally maintained for public use: _____

<u>No BMP/COA Type</u>	<u>Description</u>

Operator Comments:

This sundry is being submitted per requirement of Notice to Operators - Procedures for Setting Conductor Pipe as the well will not be drilled within 30 days of conductor pipe being set. The Tompkins well pad (Loc ID 438312) has been constructed and is scheduled for drilling operations beginning in September of 2015 (subject to change). Ursa would like to leave the 15 conductors in place to support our drilling schedule. 16" Conductor pipe was set on 12/07/2014 at a depth of 60' with 70 sxs.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
