To: "Noto - DNR, John" <john.noto@state.co.us>

Hi John,

I'm sorry I didn't stop by yesterday, my meeting went longer than expected and by the time we got out, everyone was gone.

Please see my comments below. Let me know if you need any additional information.

Susi

Susi,

COGCC is reviewing the above-referenced Form 2A. In order to complete our review process, we request that you address the following items:

1. There are 39 wells listed that the Production Facilities serves. The Rule 303.b.3(C) description of pipelines requires additional detail. **[Susana Lara-Mesa]** These flowlines are existing. Each well has its own flowline coming into the header. Attached is our map and BMP for operations.
2. Wells are not planned, therefore entries in the Drilling Program Section are not applicable. **[Susana Lara-Mesa]** Ok
3. Entries in the Drilling Waste Management Section also not applicable. **[Susana Lara-Mesa]** Ok
4. The Location is a Sensitive Area based on the 12' depth to groundwater. **[Susana Lara-Mesa]** There were no flowlines installed
5. Because the Location is not in an Urban Mitigation Area it is not a Rule 604.a.(1)A Exception Zone Setback. The Location is a Rule 604.b.(1)A Exception Location. **[Susana Lara-Mesa]** Ok
6. The attached Waste Management Plan is not applicable. **[Susana Lara-Mesa]** Ok

Please reply via email to address these concerns.

Thank you,

John Noto
