RE: Status Report: Baseline Water Quality Sampling – DOE 2-M-35 Drill Pad

Dear Mr. Danforth,

Western Water & Land, Inc. (WWL) completed a hydrologic Water Source evaluation for the WPX Energy Rocky Mountain LLC (WPX) DOE 2-M-35 Drill Pad in accordance with Colorado Oil and Gas Conservation Commission (COGCC) Rule 609. Drill Pad DOE 2-M-35 is located in NW1/4, SW1/4, Section 35, Township 6 S, Range 96 W 6th P.M. This status report addresses field revisions and the sampling location status as relevant to the original executed Baseline Water Quality Evaluation dated February 21, 2014.

The original evaluation considered all Water Sources as defined in Rule 609 within a 0.5-mile radius of the referenced drill pad. Water Sources located within a 0.5-mile radius of the DOE 2-M-35 Drill Pad are shown in Figure 1. Please see the original Baseline Water Quality Evaluation (February 21, 2014) for complete details on how the evaluation was conducted.

Water Source Identification

Water Sources as defined in Rule 609 include Colorado Division of Water Resources (DWR) registered water wells (water wells with existing valid well permits), permitted or adjudicated springs, and monitoring wells installed for baseline sampling and monitoring under COGCC Rules 318A.e(4), 608, or 609. Each Water Source identified within the 0.5-mile radius area is considered to be a potentially Available Water Source unless existing information suggests that the Water Source would not be suitable for the baseline water quality program. The original Baseline Water Quality Evaluation identified five potentially Available Water Sources located within 0.5 miles of the DOE 2-M-35 Drill Pad (see Figure 1). Well permits with the status “Permit issued; Completion status unknown” were not initially included as potentially Available Water Sources. However, because DWR databases are not always up to date, or may have errors, WWL has since revised this approach and includes permits with this status as potentially Available Water Sources.

The identified potentially Available Water Sources are summarized as follows:

- Water Well Permit No. 27547-F: permit held by Union Oil Company of California; property owned by American Soda, LLP

- Water Well Permit No. 166701: permit held by Unocal Corp; property owned by American Soda, LLP
- Water Well Permit No. 166699: permit held by Unocal Corp; property owned by American Soda, LLP
- Water Well Permit No. 166700: permit held by Unocal Corp; property owned by American Soda, LLP
- Water Well Permit No. 166689: permit held by Unocal Corp; property owned by American Soda, LLP

Preferred Water Sources

In accordance with Rule 609, all potentially Available Water Sources within a 0.5-mile radius of the drill pad are to be identified and up to a maximum of four sources must be included in the baseline and subsequent monitoring program. Each potentially Available Water Source identified was evaluated based on WWL's hydrologic knowledge of the region, general hydrologic rationale, and in accordance with the guidelines specified in Rule 609 to identify the preferred sources for the baseline program. The preferred potentially Available Water Sources were selected as follows:

- Water Well Permit No. 27547-F
- Water Well Permit No. 166701
- Water Well Permit No. 166700
- Water Well Permit No. 166689

Preferred Water Sources are incorporated into the baseline water quality monitoring program provided the structures exist, and the structure owner, or land owner if the structure owner is not known, grants approval to sample the source and inspection of the structure confirms that a representative sample can be obtained from the structure.

Access Request

All attempts requesting permission to sample potentially Available Water Sources from the well permit holders and from the property owners are recorded in the Correspondence Logs below. Access request letters, certified mailing receipts, mailings that were returned to sender, mailed responses, and email correspondence are included in Attachment A.

No access was granted to sample the Potential Water Sources and the Potential Water Sources were the only water sources identified within the 0.5 mile radius of Drill Pad DOE 2-M-35.

Correspondence Log: DOE 2-M-35				
Contact Attempt Date	Contact Name	Contact Method	Responsible Person	Results
2/24/2014	American Soda, LLP, C/O ITM Services	Certified Mail: Access Request Letter	NWS	Written response denying permission to sample received on 3/21/2014 by Solvay Chemicals. Indicated wells no longer exist.
2/24/2014	Union Oil Company of California	Certified Mail: Access Request Letter	NWS	Returned to Sender
2/24/2014	Unocal Corp	Certified Mail: Access Request Letter	NWS	Returned to Sender

Field Results

No baseline water quality sampling was conducted for Drill Pad DOE 2-M-35 because access was not granted to the identified potential Available Water Sources.

Each identified potentially Available Water Source and its monitoring status is as follows:

- Water Well Permit No. 27547-F: permit held by Union Oil Company of California; property owned by American Soda, LLP
 - Access was not granted to sample this water source.
- Water Well Permit No. 166701: permit held by Unocal Corp; property owned by American Soda, LLP
 - Access was not granted to sample this water source.
- Water Well Permit No. 166699: permit held by Unocal Corp; property owned by American Soda, LLP
 - Access was not granted to sample this water source.
- Water Well Permit No. 166700: permit held by Unocal Corp; property owned by American Soda, LLP
 - Access was not granted to sample this water source.
- Water Well Permit No. 166689: permit held by Unocal Corp; property owned by American Soda, LLP
 - Access was not granted to sample this water source.

If you have any questions or concerns, please contact me at (970) 242-0170.

Sincerely,

Bruce D. Smith

Mr. Brandon Danforth

RE: **Baseline Groundwater Monitoring Program**

To Whom It May Concern:

Under Colorado Oil and Gas Conservation Commission (COGCC) Rule 609, all oil and gas operators are required to conduct baseline groundwater sampling and monitoring within one-half mile of a well pad containing new production well(s) or injection well(s). The rule was promulgated to gather baseline water quality data prior to oil and gas development occurring within a particular area and to gather additional water quality data after drilling and completion operations.

WPX Energy Rocky Mountain, LLC (WPX) is planning on constructing Drill Pad DOE 2-M-35 or a new well located in the NW1/4, SW1/4, Section 35, Township 6S, Range 96W, 6th P.M. Our research of state databases indicates that you may own property and/or hold one or more state permits or water right decrees for wells or springs located on property within 0.5 miles of the well pad. These identified wells and/or springs are listed below:

Water Well Permit No. 27547-F: Latitude/Longitude (decimal degrees): 39.47868, -108.08916

Water Well Permit No. 166701: Latitude/Longitude (decimal degrees): 39.47375, -108.08618

Water Well Permit No. 166699: Latitude/Longitude (decimal degrees): 39.47341, -108.08526

Water Well Permit No. 166700: Latitude/Longitude (decimal degrees): 39.47334, -108.08553

Water Well Permit No. 166689: Latitude/Longitude (decimal degrees): 39.47324, -108.08490

These structures may qualify for baseline sampling and monitoring under Rule 609. If you do not have a well or spring on your property, or if you choose not to have your well or spring sampled for baseline water quality under Rule 609, please indicate so in the signature section at the end of this letter.

If you are willing to include your well or spring in the Baseline Groundwater Sampling and Monitoring Program, please complete the attached questionnaire prepared by WPX to evaluate the groundwater source(s). The questionnaire is intended to assist WPX in the assessment of the best potential baseline groundwater monitoring sites. Up to four groundwater sampling sites will be included in the baseline sampling and monitoring program within the one-half mile radius of the well pad. Sampling of these groundwater sites will occur three times; once within 12 months prior to drilling the first well on the pad, once between 6 and 12 months after completion of the last well on the pad, and once between 60 and 72 months after completion of the last well on the pad. Final water quality results of each sample will be provided to the well or spring owner and to COGCC.

Sampling sites may be registered water wells or permitted or adjudicated springs. Final selection of sampling sites may be partially dependent on the results of the attached questionnaire. Completing this questionnaire does not guarantee that your well or spring will be selected for the baseline sampling and monitoring program, and completion of the form is not required for consideration of your well or spring for the program. Completed questionnaires will be confidential except for information that is required to be reported to the state.

If you agree to have your well or spring become a monitoring site for the program, and said well or spring is selected for sampling and monitoring, water quality data results will be provided to you and to COGCC within 3 months of sample collection. Please note that COGCC will make the results public by posting the results on the agency's public database and that by signing below agreeing to have your well sampled, you are also providing WPX permission to provide the data results to COGCC and COGCC's public database.

Please sign and date the attached Acknowledgment form indicating your choice of participation in the program and return using the included pre-addressed envelope. If WPX does not receive this executed letter within 30 days from the date above, WPX will consider that you do not want to participate in the program. Please contact your WPX land representative at 970-285-9377, or myself at 970-263-2792, with any questions you may have. We appreciate your time and cooperation.

Sincerely,

Brandon Danforth
Environmental Specialist, WPX Energy

Baseline Groundwater Quality Monitoring Program Acknowledgment

I Celina Akin (print name), acknowledge that I have been contacted by WPX regarding the possible qualification of my well or spring as a Water Source for baseline groundwater sampling and monitoring under COGCC Rule 609 associated with WPX Drill Pad DOE 2-M-35, located in the NW1/4, SW1/4, Section 35, Township 6S, Range 96W, 6th P.M.. If I agree to have my well or spring water sampled for water quality parameters, I understand that the resulting data will be submitted to the COGCC and will be part of a public database. I understand that if my well or spring is selected as an Available Water Source, I will be contacted by WPX representatives to schedule sample collection. I understand that the baseline groundwater program involves three separate sampling events over a period of time.

The wells no longer exist.

I **DO** / **DO NOT** (circle one) want my well or spring to be monitored for baseline groundwater quality in accordance with Rule 609 of the COGCC regulations.

RE: **Baseline Groundwater Monitoring Program**

To Whom It May Concern:

Under Colorado Oil and Gas Conservation Commission (COGCC) Rule 609, all oil and gas operators are required to conduct baseline groundwater sampling and monitoring within one-half mile of a well pad containing new production well(s) or injection well(s). The rule was promulgated to gather baseline water quality data prior to oil and gas development occurring within a particular area and to gather additional water quality data after drilling and completion operations.

WPX Energy Rocky Mountain, LLC (WPX) is planning on constructing Drill Pad DOE 2-M-35 or a new well located in the NW1/4, SW1/4, Section 35, Township 6S, Range 96W, 6th P.M. Our research of state databases indicates that you may own property and/or hold one or more state permits or water right decrees for wells or springs located on property within 0.5 miles of the well pad. These identified wells and/or springs are listed below:

Water Well Permit No. 27547-F: Latitude/Longitude (decimal degrees): 39.47868, -108.08916

Water Well Permit No. 166701: Latitude/Longitude (decimal degrees): 39.47375, -108.08618

Water Well Permit No. 166699: Latitude/Longitude (decimal degrees): 39.47341, -108.08526

Water Well Permit No. 166700: Latitude/Longitude (decimal degrees): 39.47334, -108.08553

Water Well Permit No. 166689: Latitude/Longitude (decimal degrees): 39.47324, -108.08490

These structures may qualify for baseline sampling and monitoring under Rule 609. If you do not have a well or spring on your property, or if you choose not to have your well or spring sampled for baseline water quality under Rule 609, please indicate so in the signature section at the end of this letter.

If you are willing to include your well or spring in the Baseline Groundwater Sampling and Monitoring Program, please complete the attached questionnaire prepared by WPX to evaluate the groundwater source(s). The questionnaire is intended to assist WPX in the assessment of the best potential baseline groundwater monitoring sites. Up to four groundwater sampling sites will be included in the baseline sampling and monitoring program within the one-half mile radius of the well pad. Sampling of these groundwater sites will occur three times; once within 12 months prior to drilling the first well on the pad, once between 6 and 12 months after completion of the last well on the pad, and once between 60 and 72 months after completion of the last well on the pad. Final water quality results of each sample will be provided to the well or spring owner and to COGCC.

Sampling sites may be registered water wells or permitted or adjudicated springs. Final selection of sampling sites may be partially dependent on the results of the attached questionnaire. Completing this questionnaire does not guarantee that your well or spring will be selected for the baseline sampling and monitoring program, and completion of the form is not required for consideration of your well or spring for the program. Completed questionnaires will be confidential except for information that is required to be reported to the state.

If you agree to have your well or spring become a monitoring site for the program, and said well or spring is selected for sampling and monitoring, water quality data results will be provided to you and to COGCC within
1058 County Road 215 | PO Box 370 | Parachute, CO 81635 | 970.285.9377 Tel | 970.285.2047 Fax | www.wpxenergy.com

3 months of sample collection. Please note that COGCC will make the results public by posting the results on the agency's public database and that by signing below agreeing to have your well sampled, you are also providing WPX permission to provide the data results to COGCC and COGCC's public database.

Please sign and date the attached Acknowledgment form indicating your choice of participation in the program and return using the included pre-addressed envelope. If WPX does not receive this executed letter within 30 days from the date above, WPX will consider that you do not want to participate in the program. Please contact your WPX land representative at 970-285-9377, or myself at 970-263-2792, with any questions you may have. We appreciate your time and cooperation.

Sincerely,

Brandon Danforth
Environmental Specialist, WPX Energy

Baseline Groundwater Quality Monitoring Program Acknowledgment

I _____ (print name), acknowledge that I have been contacted by WPX regarding the possible qualification of my well or spring as a Water Source for baseline groundwater sampling and monitoring under COGCC Rule 609 associated with WPX Drill Pad DOE 2-M-35, located in the NW1/4, SW1/4, Section 35, Township 6S, Range 96W, 6th P.M.. If I agree to have my well or spring water sampled for water quality parameters, I understand that the resulting data will be submitted to the COGCC and will be part of a public database. I understand that if my well or spring is selected as an Available Water Source, I will be contacted by WPX representatives to schedule sample collection. I understand that the baseline groundwater program involves three separate sampling events over a period of time.

I DO / DO NOT (circle one) want my well or spring to be monitored for baseline groundwater quality in accordance with Rule 609 of the COGCC regulations.
