

Document Number: TBD from data entered Form 27

Location ID: 325151

Williford Resources LLC, Dye Hard #1 Pit Closure, Section 13, T33N, R12W, N PM, La Plata County, Colorado, Form 27 Conditions of Approval (COAs)

Conditions of Approval:

Conditionally approved, however, additional information or activities may be required during the course of remediation.

PIT

It is proposed that impacted soils from the work over pit (Pit #400665173, pending) will be removed from the location and replaced with clean fill. Impacted vegetation will be burned on site. Confirmation sampling will be analyzed for the constituents listed in table 910-1. If discrete samples are above 910-1 standards, the impacted material will be excavated and disposed of properly. Haul tickets or waste manifests will be provided to document proper disposal.

It is stated in the Form 27 dated August 26, 2014 that fluids were removed from the pit and placed in production tanks. A description of the composition of these fluids, as well as the total volume, shall be provided. It is also stated that impacted vegetation will be burned on site. Documentation of land owner approval and proper permits for this activity shall be provided.

Discrete confirmation samples will be collected to ensure all impacted material has been removed. A description of the sample location, collection methods, and depth shall be provided to COGCC SW EPS Jim Hughes either at (970)-903-4072 or via e mail at jimo.hughes@state.co.us. Composite samples will NOT be accepted. Samples shall be analyzed for the constituents listed in table 910-1. Should sample results indicate additional impacted material; the soil will be excavated and disposed of at an approved facility.

Upon closure of the work over pit, and reclamation efforts, the operator shall comply with the 900 and 1000 series rules regarding pit closure and reclamation standards.
