Re: **Letter to the Director, Rule 318A.n.**  
LDS 1V-304  
NENE, Section 1, T5N R65W  
Weld County, Colorado

Dear Director:

Per rule 318A.n., PDC Energy, Inc. ("PDC") is requesting an exception to the rule for the above captioned well. The proposed well will be less than 150' to Gatewood #6-1 (~145' to proposed well; API # 05-123-13457, SENW) in Sec 1 T5N R65W, BJB 6I (~146' to proposed well; API # 05-123-25818, NWNE) in Sec 1 T5N R65W and Wagner-Ehrlich (PA, ~7' to proposed well; API # 05-123-11739, NWNE) in Sec 2, T5N R65W. Since the encroached wells are operated by PDC, no other waivers are needed.

**Proposed Anti-Collision Mitigation BMP:**

Prior to drilling operations, Operator will perform an anti-collision scan of existing offset wells that have the potential of being within close proximity of the proposed well. This anti-collision scan will include definitive MWD or gyro surveys of the offset wells with included error of uncertainty per survey instrument, and compared against the proposed wellpath with its respective error of uncertainty. If current surveys do not exist for the offset wells, Operator may have gyro surveys conducted to verify bottomhole location. The proposed well will only be drilled if the anti-collision scan results indicate that there is not a risk for collision, or harm to people or the environment. For the proposed well, upon conclusion of drilling operations, an as-constructed gyro survey will be submitted to COGCC with the Form 5.

Due to the reasons above, PDC respectfully requests your approval. If you have any questions, please contact the undersigned at 303-318-6131 or at shayelyn.marshall@pdce.com.

Sincerely,

A handwritten signature in blue ink that reads "Shayelyn Marshall".
