Inspector on location to perform follow up to inspection from 1/27/2014 (document number 673400226). All Corrective Actions required in that report have been met. This inspection is Action Required because of issues observed on location today. Inspector spoke with operator over the phone on 1/5/2015 regarding production tank without containment and was given verbal assurance that the well would be shut-in until containment was constructed.	waldrone	01/05/2015

(Please note that the COGCC's penalty authority was recently increased to a maximum of \$15,000 per day and penalties are no longer capped at a maximum of \$10,000 per violation.)
