Cheryl,

The number of exceptions on the Welker Sundry Notice (Doc # 400768027) requested should be changes from 3 to 4. There should be an exception for every sample that is not collected. I can make the change the for you with your consent.

Thanks,

Arthur

Cheryl,

I believe the attached Sundry id the one you were looking for.

Arthur

Arthur,

Will you please check the 609 Exemption for the North Hayden 1-26 well API# 107-06263. I don't find where there was one filed on e-forms.

I will submit the Sundry on the Welker well today. Thank you for the notice.

Cheryl

Cheryl,

You are fine with the first Sundry there is no need to file for the lateral.

I do however need you to file a Sundry Notice for the WELKER 6-92 #1-2H11 (API #05-043-06219). There does not appear to be any samples submitted or a Sundry Notice. You can avoid receiving a warning letter if you can take care of it today.

Thanks,

Arthur

Subject: FW: 609 Exemption on vertical or ST

Arthur,

We will be drilling a pilot hole, log, kick off and drill a horizontal sidetrack without moving the rig off location. I have filed the 609 Exception on the vertical hole. Should I also file the same for the sidetrack?

The Form 4 for the vertical is Doc #400767412.

Regards,
Cheryl

Cheryl,

You are drilling both legs of the well separately, so I would think it best to have two requests. However Arthur Koepsell is the one that would handle the water issue.

Sarah,

When a well has to API's vertical portion and ST. Which do you request the 609 water exemption? Or, do you file an exemption for both?

I had just submitted Doc 400767412 on the vertical and realized this well will be sidetracked.
