Subject: Status of Nelson A-6, NWNW Sec 1, T8N R54W, API #05-075-05841, Remediation Project #7315

To: annie.eckman@state.co.usCc: John Noto - DNR <john.noto@state.co.us>, "Axelson - DNR, John" <john.axelson@state.co.us>, s.d.james@att.net, Chris Purcell <cpurcell@ltenv.com>

Annie/John,

As of May 2014, there was new but sparse vegetation in the salt kill area. Plans have been made to re-inspect the site in September 29, 2014 to check on the status of the vegetation, and to meet with a contractor to evaluate plans in place to plant boron-resistant vegetative cover and erosion control measures to protect seeding, if necessary.

On May 21, 2014, approximately 275 tons of oily waste was hauled to the Buffalo Ridge Landfill located in Keenesburg, Weld County, Colorado. The associated waste manifests are attached.

Thanks,

Eric Lang, P.G.

Project Geologist
