Subject: Colorado GPS 12/10/2014 10:42

Diana,

Per your request I have attached the Leibert, McAtte & Associates, Inc. Land Surveyors report on our Colorado Properties. It appears when the Plugging Report was filed for the Writebol #2 075-05580 the GPS was inadvertently taken from Writebol #3 05-075-05599.

I have requested Crystal to correct my reports which were filed incorrectly. I apologize for that mistake but the wells have always been injected into the Hoxie and not to a pit.

We are sorry for this confusion and hope this corrects the problem.

Mary
