**Inspector Comment:**

COGCC on location to discuss planned plugging and environmental work with the surface owner as a follow-up to Field Inspector Report #675000006 (12/12/2014). The plugging bond for this well has already been claimed pursuant to Commission Order No. 1V-458. Kris Neidel and Randy Booco were also on location during this field inspection. The only purpose of this field inspection was to discuss the scope of work. Refer to Field Inspection Report #675000006 for additional observations and corrective action needs at this location.

**Idle Well**

Purpose:  Shut In  Temporarily Abandoned Reminder: \_\_\_\_\_

S/A/V:  CA Date:

CA: File data indicates that the 4-1/2" casing was cut. Site observations indicate that the casing was not pulled. The open 4-1/2" casing is cemented in the wellhead with a visible fluid level near surface (intermittent bubbling observed through the fluid). The surface owner poured water from a small plastic water bottle around the outside of the 4-1/2" casing to show bubbling outside of the 4-1/2" casing. COGCC will need to re-set a surface plug by washing over and cutting the 4-1/2" casing. The surface owner agreed to prepare a cost estimate for the preparatory earthwork, including removal of impacted soils around the wellhead, and Mr. Booco will solicit a cost estimate from a local company with a workover rig to wash over the casing and set a new surface plug. Stored equipment near the wellhead is the property of Mr. Booco. CA date set as end of fiscal year 2016, but actual date may be extended to a later date based on COGCC orphan work prioritization.

Follow up field inspections will be required during and after plugging operations.	andrewd	02/04/2015

## **ACTION REQUIRED**

**ANY ACTION REQUIRED** items listed on this report indicate that the oil and gas facility or the oil and gas operations listed on the report may be in violation of the rules and regulations of the Colorado Oil and Conservation Commission (“COGCC”) and corrective action is required.

There is reasonable cause to believe that a violation of the Oil and Gas Conservation Act, or of any rule, regulation, or order of the Commission, or of any permit issued by the Commission, has occurred. The Operator’s compliance with this Inspection Report is required to resolve these alleged violations. This document requires the Operator to timely respond to the COGCC and to comply with directives as listed by the **Corrective Action Deadline Date**. Failure to do so will result in the issuance of a Notice of Alleged Violation and initiation of enforcement proceedings in which COGCC will seek monetary penalties for the alleged violations pursuant to § 34-60-121, C.R.S. and Rule 523, COGCC Rules of Practice and Procedure, 2 CCR 404-1. (Please note that the COGCC's penalty authority was recently increased to a maximum of \$15,000 per day and penalties are no longer capped at a maximum of \$10,000 per violation.)
