Multi-Well: YES Disposal Location: _____

Comment:

Rig is currently cementing intermediate csg. I performed a walkaround of the location with a representative from Anadarko. The following items were requested to be addressed. Trash container is uncovered, it has a cover and should be utilized prior to high winds occurring. A bag in the conex storage has been torn, allowing a small amount of spillage onto the floor. Materials need to be cleaned up. Additional bags that are being stored near the drilling rig on pallets have a cover that is not being utilized, bags need to be covered.
