**Inspector Comment:**

Site visit by C. Lujan and S. Spencer 02/11/15. 100 bbl crude oil tank dripping pw from bottom valve on east side (see attached photo). Oily water appeared to be contained within dirt berm surround tank. Called Rachael Grant (Foundation) on 2/12/15 am. Ms. Grand indicated she would have leak repaired. Directed her to submit spill report via F-19, define extent of contamination and clean up contaminated soil. Three pits are listed in database however only one pit observed on site. Operator must submit pit report indicating status of all pits so that non-existent can be changed to "closed" status.

## **ACTION REQUIRED**

**ANY ACTION REQUIRED** items listed on this report indicate that the oil and gas facility or the oil and gas operations listed on the report may be in violation of the rules and regulations of the Colorado Oil and Conservation Commission (“COGCC”) and corrective action is required.

There is reasonable cause to believe that a violation of the Oil and Gas Conservation Act, or of any rule, regulation, or order of the Commission, or of any permit issued by the Commission, has occurred. The Operator’s compliance with this Inspection Report is required to resolve these alleged violations. This document requires the Operator to timely respond to the COGCC and to comply with directives as listed by the **Corrective Action Deadline Date**. Failure to do so will result in the issuance of a Notice of Alleged Violation and initiation of enforcement proceedings in which COGCC will seek monetary penalties for the alleged violations pursuant to § 34-60-121, C.R.S. and Rule 523, COGCC Rules of Practice and Procedure, 2 CCR 404-1. (Please note that the COGCC's penalty authority was recently increased to a maximum of \$15,000 per day and penalties are no longer capped at a maximum of \$10,000 per violation.)
