Additionally, pursuant to Rule 318.s, no portion of a proposed wellbore's treated interval shall be located within 150 feet of an existing (producing, shut-in, or temporarily abandoned) or permitted oil and gas wellbore's treated interval belonging to another operator without the signed written consent of the operator of the encroached upon wellbore.

As currently planned, the following well(s) operated by PDC Energy, Inc. have treated intervals that lie within 150 feet of the horizontal lateral of the captioned well:
