Subject: RE: NGL Water Solutions / C3A / Injection Rate Increase Request
Attachments: 20141209 NGL C3A Injection Rate Increase Request.pdf

Date: December 29, 2014

Mr. White,

Through review of the USGS and NGL's monitoring data no seismicity has been detected near the C3A injection well at the current injection rates. Therefore, COGCC approves the C3A injection well maximum daily injection rate of 15,000 bwpd and an injection pressure not to exceed 2,000 psi.

Thank You,
Stuart

Subject: NGL Water Solutions / C3A / Injection Rate Increase Request

CONFIDENTIAL – Not to be disclosed to third parties – for commission review only – Under Deliberation

Hi Stuart,

Per our meeting last week please find the attached letter requesting a rate increase for C3A. The letter includes a report by the seismologist in Los Alamos. Please note the confidentiality statement in the request.

I will follow up with a request for C4A shortly.

Neel
