11/28/2008	200200610	PR	PR	SATISFACTORY			No

**Inspector Comment:**

The overall status of this field inspection is Action Required based on the following: No berming in place around the 100 bbl produced water tank (REA Drip) to meet COGCC rule 605a.4 requirements; the tank can be removed if no longer in use. The facilities section of this report outlines details of Actions Required. Photo's Uploaded. The following corrective actions outlined on the previous inspection # 674600600 performed on 07/02/2014 have been completed: Capacity has been added to the labeling on the (2) steel AST tanks and (2) steel BV tanks to comply with COGCC rule 210; The unused chemical injection equipment has been removed from this location.

## **ACTION REQUIRED**

**ANY ACTION REQUIRED** items listed on this report indicate that the oil and gas facility or the oil and gas operations listed on the report may be in violation of the rules and regulations of the Colorado Oil and Conservation Commission (“COGCC”) and corrective action is required.

There is reasonable cause to believe that a violation of the Oil and Gas Conservation Act, or of any rule, regulation, or order of the Commission, or of any permit issued by the Commission, has occurred. The Operator’s compliance with this Inspection Report is required to resolve these alleged violations. This document requires the Operator to timely respond to the COGCC and to comply with directives as listed by the **Corrective Action Deadline Date**. Failure to do so will result in the issuance of a Notice of Alleged Violation and initiation of enforcement proceedings in which COGCC will seek monetary penalties for the alleged violations pursuant to § 34-60-121, C.R.S. and Rule 523, COGCC Rules of Practice and Procedure, 2 CCR 404-1. (Please note that the COGCC's penalty authority was recently increased to a maximum of \$15,000 per day and penalties are no longer capped at a maximum of \$10,000 per violation.)
