Follow up to inspection from 4/28/2014 (document number 673400480). Stormwater issues that remained from the previous inspection on 11/18/2013 (document number 673400105) were discussed during the 4/28/2014 inspection with Vaquero field personnel. None of those stormwater issues have been resolved and the location has been out of compliance with COGCC stormwater rules since the initial inspection in 2013. Inspection is being referred for further enforcement.	waldrone	03/17/2015
