**RE: COGCC Rule 306.e.: Meetings with Building Unit Owners within a Buffer Zone Setback
COGCC Rule 306.e.(5): Operator Certification
Long 22-B Pad: NENW, Section 22, Township 1 North, Range 65 West
Weld County, Colorado**

Dear Mr. Lepore,

Edge Energy, LLC (Edge Energy), has filed the Form 2A Oil and Gas Location Assessment (OGLA) for the proposed oil and gas pad referenced above.

Pursuant to COGCC Rule 305.c., Edge Energy certifies that the required notifications to all Building Unit Owners within the Buffer Zone Setback were sent and was available for meeting and/or consultation. Edge Energy initiated a consultation with Judy and Tom Humphrey, Building Unit Owner as well as their neighbors, Kenneth and Lori Pangle who live 2500 feet southeast of the Long Pad. They had questions regarding the view, noise, dust, odors, trash, mud on County Road 8 and the potential use of her driveway being used for a turn around. Edge Energy met with the Building Unit Owners to discuss the BMPs that address their concerns. Judy Humphrey mentioned current issues with her water well and a verbal okay from Judy was given to get a water sample. They also gave a verbal okay to do the ambient noise measurement for the sound survey. This letter serves as Operator Certification that Edge Energy has complied with COGCC Rule 306.e. and resolved Building Unit Owner concerns.

Edge Energy respectfully requests the COGCC approve the Form 2A for the Long 22-B Pad. Many thanks for your consideration of this matter.

Respectfully,

A handwritten signature in blue ink that reads "Jeff Annable". The signature is fluid and cursive.
