No	BMP/COA Type	Description

Operator Comments:

There is a COA associated with the Wirth #7 (087-07993) regarding mitigation per the Horizontal Offset Policy. The Wirth #7 lies within the 1500' buffer, however Synergy has determined that it has sufficient coverage and does not need mitigation. Dirk Stuphin has agreed with Synergy's conclusion, and thus Synergy requests the removal of the COA regarding the Wirth #7 mitigation. Documents attached include the Wirth #7 Wellbore and the email correspondence with Mr. Stuphin.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
