**General Comments**

<b><u>User Group</u></b>	<b><u>Comment</u></b>	<b><u>Comment Date</u></b>
Environmental	COGCC agrees that PAHs above Table 910-1 are found in Green River outcrops. COGCC takes these background values in to consideration. In addition, PAH concentrations have decreased one order or magnitude from 2010 to 2011 and although they were still slightly above Table 910-1 in 2011, it is safe to assume that they are now in 2015 within Table 910-1 values. Pit facilities #425573 and 425585 (North and South Pits) have been closed in accordance with REM #7771 and 7772, respectively. No Further Action is Required regarding the closure of these pits. REM #7771 and 7772 have been closed. C Lujan, 03/20/2015	3/30/2015 9:38:57 AM
