Cherlyene,

Here are some proposed edits for you. Thanks for the opportunity to work on these with you prior to your APD submittal – it should streamline the permit turnaround for both of us. Please give me a call or send me a note if you have any questions.

Jon,

Good morning. Here are the Word documents. Let me know if you need anything else.

Thanks,

Cherylene

Hi Cherylene,

Could you send a copy of your BMP's in word for the Penrose and Anderson wells? If you can, I can provide some suggested edits for you. Thx.

Proposed Wildlife BMPs

Anderson 2-5H & 3-5H Pad Wells SE/4 SE/4 Sec. 5, T32N, R06W La Plata County, Colorado

- ❖ The Anderson 2-5H & 3-5H will be drilled on a new well pad to reduce surface disturbance impacts.
 - Allows for future horizontal development on same pad.
- ❖ A closed-loop mud system will be used during drilling operations.
- ❖ Fencing new well pad: to avoid possible injury to Surface Owner or surface tenant livestock, Operator shall provide new 5-wire T-post fencing around the new well pad and cattle guard in the new access road.
- ❖ The access road will be gated in order to restrict general public access. **Access Road is currently gated.*
- ❖ All fired vessel and heat transfer stacks, vents or other openings shall be equipped with screens or other appropriate equipment to prevent entry by wildlife, including migratory birds.
- ❖ Do not place staging, refueling, or chemical storage areas within riparian zones and floodplains.
- ❖ Construction, drilling and completion activities will be scheduled to avoid critical winter use periods for deer and elk from December 1 - April 15.
- ❖ Recycle drilling fluids.
 - Mud systems are dewatered, recycled and water is reused during drilling operations, reducing the amount of water needed to be trucked for drilling operations.
 - Mud can be transported to next drilling location, reducing truck traffic to dispose of drilling fluids.
- ❖ Adhere to the developed weed management plan pursuant to both the La Plata County Land Use Code and Colorado Noxious Weed Act.
 - Protects the productivity of adjacent wildlife habitats.
- ❖ Screen exhaust and vent stacks to preclude avian perching.
- ❖ Seed mix will be determined by Surface Owner.
- ❖ Educate employees and contractors on wildlife conservation practices, including no harassment or feeding of wildlife.
- ❖ Forbid use of firearms and dogs on location.

Attachments: Anderson 2-5H & 3-5H Wildlife BMPs.pdf; Anderson Aerial Map for DOW.pdf

Hello,

Please find attached an aerial map and Wildlife BMP document for the proposed wells that XTO is in process of filing COGCC APD's on.

Please process for DOW comment period. If you need additional information please let me know.

Thanks,

Cherylene L. Weston, CPLTA
