Based on the information provided herein, this Sundry Notice (Form 4) complies with COGCC Rules and applicable orders and is hereby approved.

COGCC Approved: ALLISON, RICK Date: 4/9/2015

CONDITIONS OF APPROVAL, IF ANY:**COA Type****Description**

	The Operator has requested a variance from Rule 1004.a. for additional time to complete remediation activities associated with production pit closure and approved in Remediation Project 8780. Rule 1004.a. allows the Director to grant an extension to the timing requirements for final reclamation. Therefore, a 502.b. variance request is not necessary. Further, approval of this extension request does not indicate that a variance to any COGCC Rule has been granted. Final reclamation must commence by the earlier of: 1. The date indicated on this Sundry Notice (09/01/2016), or 2. Within 3 months of completion of remediation of impacted soil at the production pit.
