DRILLING COMPLETION REPORT

Per Rule 308A, this form and all required attachments shall be submitted after completing the drilling operations to drill, sidetrack, or deepen a wellbore and after changing the casing and cement configuration of a wellbore. If any attempt has been made to test, complete, or produce the well, the operator shall also submit a Form 5A (Completed Interval Report) per Rule 308B. If the well has been plugged, the operator shall also submit a Form 6 (Well Abandonment Report) per Rule 311.

Operator Comments

During drilling operations on 8/7/2012 the rig tripped out of the hole for a bit check and discovered the well was flowing 5-10 BBLs/MIN of fresh water. The rig crew reported the ground was fracturing and cracking around the rig sub area and under the dog house so it was determined to abandon drilling and pump cement in the open hole. COGCC was consulted and a permit for a re-drill was obtained. A Form 6 is filed with details of abandonment.

I hereby certify all statements made in this form are, to the best of my knowledge, true, correct, and complete.
