Tracking Num	Category	Assigned To	Description	Incident Date
200241415	WEEDS	Precup, Jim	On 6-11-2009 I was contacted by Melinda Brenimer about a weed problem she was trying to resolve on her property. She said that she had been trying to deal with it for years but was having no success resolving the issue. She said that the problem had been caused by a well being operated by Noble and was a result of Noble not dealing with weeds on their well and battery site. I told her I would have a look at the property and get back to her.	04/07/2010

200428114	WEEDS	Precup, Jim	API 05-123-14957 COGCC Inspection Report 668300602 Randell Johnson marked the Musk Thistle on my property as not a Noxious weed. Weld County has Musk Thistle on the B list: "The Colorado Department of Agriculture also placed a number of species on the "B list". Plants on the "B List" have the potential to be very invasive noxious weeds that quickly transform an area. These plants are typically already established in Colorado. However, on a local level (i.e. in Weld County) they may just be moving in. Therefore, the species on the "B list" will have at least control/suppression requirements and may have eradication requirements." ( <a href="http://www.co.weld.co.us/Departments/PublicWorks/WeedManagement/IdentifyingPlants/ControlWeedSpecies-ListB.html">http://www.co.weld.co.us/Departments/PublicWorks/WeedManagement/IdentifyingPlants/ControlWeedSpecies-ListB.html</a> ) "Once a pasture is infested, the livestock carrying capacity for that area is significantly decreased. " My property has been infested for at least 10 years, most likely since first drilled in 1991.	04/01/2015
