

Wildwood Federal 1 - Duncan Oil, Inc.

E&P Waste Management Plan

Duncan Oil LLC (Duncan) plan for the appropriate handling of produced water, drill mud and cuttings, tank bottoms, and other associated Exploration and Production (E&P) wastes is described below:

- E&P wastes onsite will be stored in compatible containers or containment devices designed or engineered for the purposes for which they will be utilized. These containers will be inspected on a regular basis to ensure that no undue wear, structural issues, severe rust, other defects, which may impact their effectiveness.
- E&P wastes will be transported offsite to a commercial facility via truck by a licensed transporter. Frequency of these operations will vary by site based on waste volumes.
- Any soils contaminated by E&P waste will be disposed of by a licensed third-party disposal facility. Tank bottoms will be disposed of at licensed third-party disposal facilities.
- A Land Application Site will be permitted prior to Spud for any Water-Based Bentonitic Drilling Fluids & Associated Drill Cuttings.
