To: Andy Ashby <aashby@ee3llc.com>

Andy,

Please provide lab analytical analysis on the cuttings at the Grizzly 3-32 location.

Please send via email to me.

Thank You,

Kris Neidel

Andy,

Can you please send me an update on when the cuttings on Grizzly #3-32H?

Has the cutting been characterized with lab analytical?

I see the location is permitted for onsite disposal is that spreading or fill?

The cuttings have been on/around the pad for over 3 months. Now it is winter and plowing season, I am concerned with the cuttings being pushed around and also being stolen and used as fill.

Thanks for the update!

Kris,

Will do. The cuttings have not been used else where. Confluence confirmed 9-10 compliance and moved the cuttings to form berms on location. I will get the analytical to you ASAP. AA
