Was the operator contacted? N If yes, contact name: VERDAD OIL & GAS CORPORATION

Complaint Issues

Table with 3 columns: Category, Assigned to, Description. Row 1: NOISE, Jim Precup, Since last Sat (early AM ) flaring at this well has been unnecessarily odorous noisy and heavy (very bright). No being an expert on ECD's just curious if the unit installation meets standards. According to your COA,s the BMPs (Green Completions) required a closed loop drilling system. Also curious if the required locating/monitoring of API 05-123-10319 will ever take place? Thank you,
