Re: Name of Operator for Application for Permit to Drill, Location Assessment, and Surface Use Agreements for Afton Wells in SE of Section 12, T. 1 S., R. 68 W., Adams County

Dear Ms. Westerdale:

We want to make you aware that changes in our corporate structure have caused inconsistencies in the forms we submitted to the Colorado Oil and Gas Conservation Commission ("COGCC") for the Afton Wells in the above captioned lands.

The original Form 2, Application for Permit to Drill, which is grandfathered under the previous COGCC rules, were submitted to the COGCC with Pico Niobrara, LLC named as operator. Form 2A, Location Assessment, was submitted to the COGCC with Mendell Niobrara, LLC named as operator. The Surface Use Agreements accompanying such Forms 2 and 2A were executed by Pico Finisterre II, LLC. The correct operator in each instance is Mendell Finisterre II, LLC.

Thank you for your attention to this matter.

Sincerely,

**MENDELL FINISTERRE II, LLC,  
f/k/a PICO FINISTERRE II, LLC**
